## EDUCATION

### B.SC. INFORMATION TECH

Richfield Institute of Technology

2022 - 2024

- Majored in Software Engineering
- Majored in Artificial Intelligence
- 3.8 GPA

## EXPERIENCE

### SALES ASSOCIATE / IT ASSISTANT MANAGER

Mr Price Group

2021 - 2023

- Diagnosed and resolved 50% of recurring software and technical issues within the retail environment, enhancing overall system stability and performance.
- Assisted in the set-up, configuration, and deployment of Point-of-Sale software, ensuring seamless integration with existing systems.
- Developed and implemented an effective communication protocol between till points and technical support, improving workflow efficiency by 40%.
- Performed regular software maintenance to ensure compatibility with the latest updates and patches, maintaining optimal system functionality.

### FRONT-END DEVELOPER

Yokico

2023 - Present

- Creating responsive and visually appealing user interfaces using HTML, CSS, and JavaScript.
- Working closely with UX/UI designers to translate design mockups and wireframes into functional front-end code.
- Collaborating with back-end developers to integrate APIs and ensure seamless data flow between front-end and back-end systems.
- Conducting code reviews and participating in team code reviews to maintain high code quality.
- Focusing on user-centric design principles to create intuitive and accessible interfaces.

### FRONT-END DEVELOPER INTERN

Mr Price Technology

2024 - Present

- Working closely with senior developers to understand project requirements and implementation details.
- Receiving mentorship and guidance on best practices in front-end development.
- Participating in code reviews to learn from feedback and improve coding skills.
- Gaining knowledge of industry standards and best practices for front-end development.
- Gaining hands-on experience and building a foundation for a future career in front-end development.

# MATEO ARUMUGAM

## SOFTWARE DEVELOPER

TO WHOM IT MAY CONCERN,

I am writing to express my interest in the Software Developer position as advertised. With a Bachelor of Science in Information Technology and 4 years of professional experience in software development, I bring a proven track record of designing, implementing, and optimising software solutions that drive business growth and operational efficiency. I am confident that my technical skills, problem-solving abilities, and passion for innovation will provide significant advantages to your team.

At Yokico (current employment), I have been instrumental in developing and deploying applications that have streamlined processes, improved user experiences, and generated substantial cost savings. My proficiency in multiple programming languages, including Java, Python, and JavaScript, allows me to create versatile and robust applications tailored to meet specific business needs. I have successfully led projects using Agile methodologies, ensuring timely delivery of high-quality software through iterative development and continuous feedback. One of my notable achievements was the development of a customer relationship management system that improved client interaction tracking and enhanced data accuracy. By integrating advanced features such as real-time data analytics and automated workflows, I increased sales team productivity by 30% and reduced manual data entry errors by 40%. This project not only showcased my technical expertise but also demonstrated my ability to understand business requirements and translate them into effective software solutions. In addition to my technical acumen, I am highly skilled in collaborating with cross-functional teams to drive project success. My strong communication skills enable me to articulate complex technical concepts to non-technical stakeholders, ensuring alignment and fostering a collaborative work environment. I am also adept at mentoring junior developers, guiding them through coding best practices and troubleshooting techniques to enhance their capabilities and contribute to team growth.

I am eager to bring my expertise in software development to your team, leveraging my skills to contribute to your ongoing success and drive impactful outcomes for your clients. Enclosed is my resume, which provides further detail about my professional background and accomplishments. I look forward to the opportunity to discuss how my experience and skills can align with company goals and objectives. Thank you for considering my application. I am excited about the possibility of joining your team and making a meaningful contribution to your organization.

SINCERELY,
